One of the benefits of being a PAGASA member is getting your own pagasa.org.ph email address. You can have an e-mail like "name\_of\_your\_store @ pagasa.org.ph".

PAGASA mailboxes are now powered by Google. This means that you get about 4.5mb (and counting) of mailbox, superior spam and virus protection and you can access your e-mail using your favorite mail reader, use a web browser and even your cellphone!

If you are a member in good standing, just get in touch with the secretariat and request for your personalized mailbox.

The mailbox size is now 6.5gb as of this update.
