PLANS OF NEW PAGASA OFFICE TAKING SHAPE

Wednesday, 12 March 2025

Planning & designing by CAD Master and PAGASA Treasurer Myke Teodoro continues for PAGASA's future office at William Villanueva's place. In the morning of 11 March 2025, STC and Myke paid William another visit to visualize the digital plans designed by Myke and to take measurements accordingly as space provided by William has expanded tremendously. This 85 sq.m. new office will now include William's office and house his I.T. Company> Wave Technologies. Thanks to the generosity of William and Myke, PAGASA's new office is taking shape!
