STC decided to make a trip to Cagayan Province up north and visited PAGASA Member Candice Megamart run by PAGASA P.R.O. Edna Ontiveros and son Cyrus. On the bright morning of 23 June 2018, he made the rounds of Tuguegarao's city proper and its historic tour sites like the Callao Caves (where later on archaeologists have found a foot bone that could prove the Philippines was first settled by humans 67,000 years ago, thousands of years earlier than previously thought.).
