TWG ON PROLIFERATION OF FAKE PWD I.D. CARDS

Thursday, 13 February 2020
Last Updated Friday, 30 April 2021

The afternoon of 13 February 2020 had PAGASA meeting in Congress with a Technical Working Group on the proliferation of fraudulent I.D.s issued out to People With Disability (PWD) or the specially-abled.Â Of course those who represented the sector (PWDs) at this Meet vehemently denied that their Associations were Involved or in cahoots with any syndicate in the Issuance of said fake IDs. Clarifications had to be made by STC regarding how retailers can spot people with real disabilities as those hard-of-hearing and the like are very difficult to spot by our personnel in the selling area. Also, the different modus operandi of syndicates involved in fake IDs were tackled.
