In the morning of 7 April 2022, PAGASAÂ attended DTI-CPAB's webinar on the Amended Retail Liberalization Act of 2022 (which lowered the minimum capitalization of foreign retailers planning to set up shop in the Phils.). PAGASA Pres. STC asked: "Who will monitor the activities of foreign retailers if they use different names in going online, door-to-door & other retailing activities outside of their physical stores? These will hurt the MSMEs who are already challenged." STC didn't get a satisfactory reply from the speakers. Above is Sherwin Acob from the Senate who gave a presentation on the said Act.
