DTI CPAB WEBINAR ON EPR PART II

Tuesday, 25 April 2023
Last Updated Friday, 05 May 2023

In the morning of 25 April 2023, DTI's CPAB conducted a Webinar on how Plastics Credit Exchange (PCX) fits into the scheme of EPR. PCX acts as a PRO (Producer's Responsibility Organization) that provides compliance services/consultancy to the OE's (Obliged Enterprises) which are required to register with the National Ecology Center for plastic packaging waste management compliance. OE's are manufacturers/enterprise with P100M in assets (excluding real estate). OE's may engage with PRO's such as PCX to assist them in their sustainability programs. Meg Santos of PCX gave a very comprehensive presentation on how they can assist OE's in their compliance with the EPR Law.
